	CENTRAL INTELLIGENCE AGENCY -2-
25X1A	Comment. No other information has been received on plans to move the Seepolizei school to Daenholm Island off Stralsund. A new Seepolizei unit may be activated there. Indications on the establish-
25X1A	ment of Luftpolizei (Air Police) units have been vague so far. A previous report stated that a VP aumunition dump was to be established
25X1	in Parow. Comment. A marine school for civilian shipping of the German Democratic Republic is located in Austron. The statement that Seepolizei personnel were detached to the school is probably true, inasmuch as Seepolizei and the Poviet Lone fishing fleet are being equipped with the same type drifters, produced in great numbers.
